Holly Muench

John Beinborn

Richard Sanson

Thank you to the dedicated staff of the Grant County Health Department, as well as our Health & Human Services Board Members, the Grant County Administrator, the County Board Chair, and the entire County Board, for making 2025 another successful year in service to the residents of Grant County.

Our mission at the Grant County Health Department is simple but powerful: *“To promote the health and wellness of all residents of Grant County—Everyone Living Better, Longer.”* As you read this annual report, I hope you gain a strong sense of the commitment, compassion, and effort our staff bring each day to fulfill this mission.

In 2025, the Health Department continued to face staffing challenges, including the retirement of our Assistant Director/Director of Nurses, Amy Miller. We extend our sincere gratitude to Amy for her many years of dedicated service and wish her all the best in her retirement. 2025 also held our DHS 140 Review. We are proud to say we were successfully recertified as a Level II Health Department.

The Grant County Health Department effectively sustained and advanced a wide range of programs, many of which are highlighted in this report. Thank you for taking the time to learn more about our work and our ongoing commitment to serving the people of Grant County.

Communicable Disease Control

Communicable Disease Assessment & Surveillance

Under DHS Chapter 145, all local Health Departments are required to follow up on all Category I and Category II diseases. Follow up actions include case investigation interviews with patients, educating about disease control, identifying exposed contacts, performing contact tracing, and enforcing quarantine and isolation guidelines. Below is a summary of the communicable diseases reported to the Grant County Health Department in 2025.

The Grant County Health Department continues to have three nurses who are specially trained in HIV Counseling, Testing, and Referral Program (CTR). This program provides risk assessments, education, and free testing to eligible Grant County residents. We are currently working with the LaCrosse County Health Department for Partner Services.

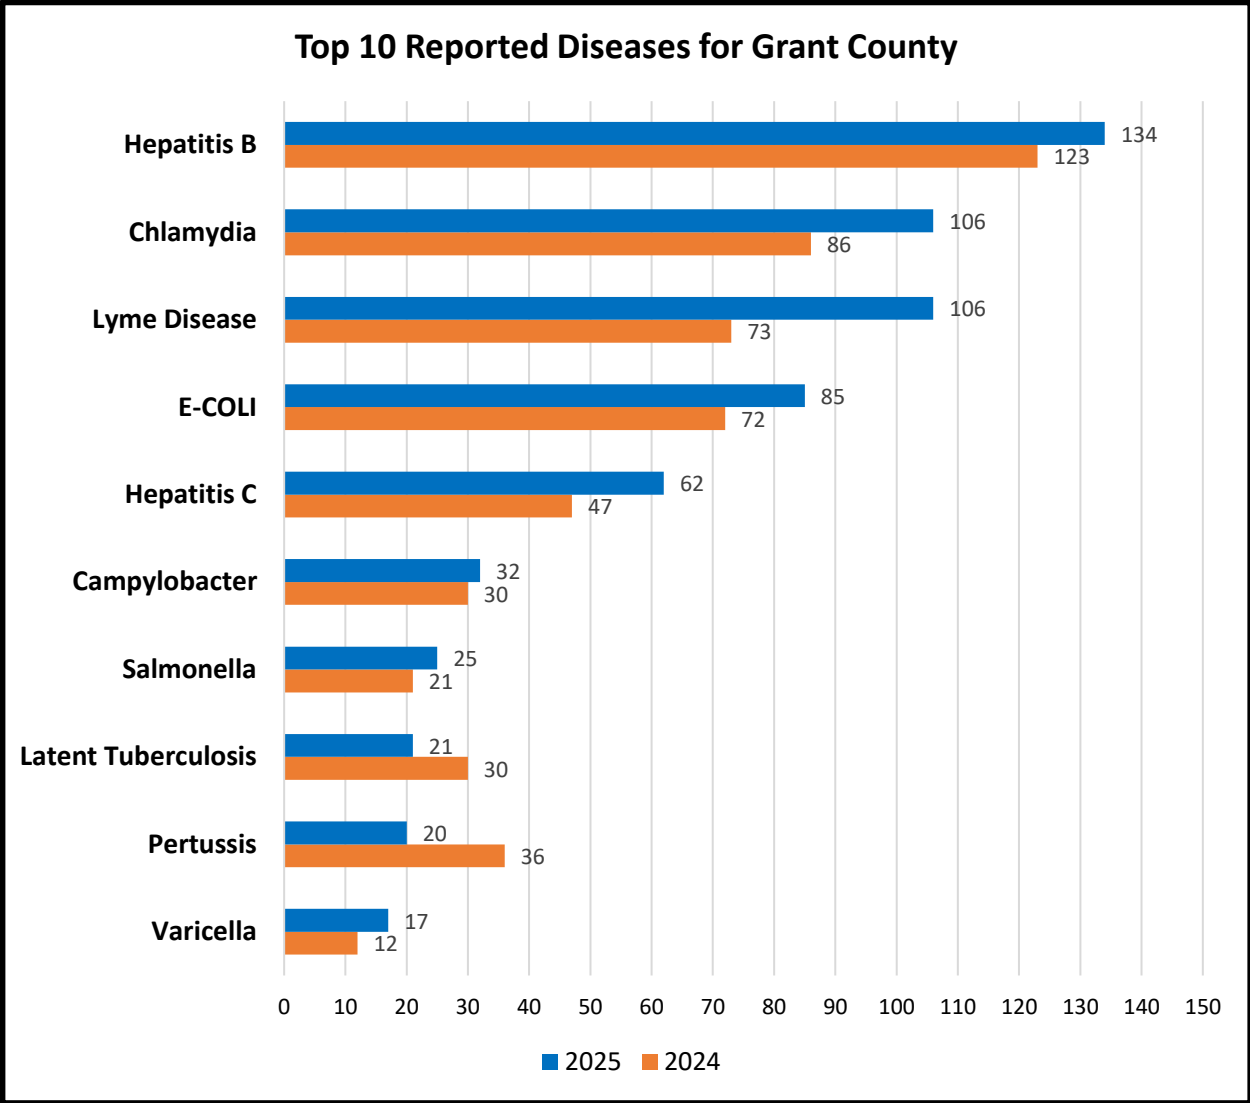

Total # of Communicable Disease Cases Reported in 2025: 1,297

1,383 cases reported in 2024

These are cases marked suspect, probable, confirmed, & not a case in WEDSS (Wisconsin Electronic Disease Surveillance System)

Other Notable Reportable Diseases in 2025:

- 2 Confirmed cases of West Nile in horses
- 1 Positive Tuberculosis Case
- 2 confirmed cases of Legionellosis

Animal Bites

In coordination with law enforcement, veterinarians, and local providers, the Health Department is charged with enforcing a rabies control program under Wisconsin Statute 95.21. This entails phone interviews/follow up after receiving notice of an animal bite. Each bite order received requires a minimum of four phone call follow ups, touching base with the animal owner, victim of the bite, and the veterinarian at the start and end of the quarantine process to ensure prevention of rabies transmission.

147 Reported Animal Bite Incidents in 2025

*This is an increase from the 125 incidents
reported in 2024*

Animals Involved:

- 91 Dogs
- 46 Cats
- 2 Racoons
- 1 Ferret
- 1 Goat
- 1 Horse
- 1 Mule
- 1 Rat

- 4 bats were sent to WSLH for testing, all were negative.
- The raccoons, ferret, goat, horse, and mule were also sent to WSLH for rabies testing, all were negative.
- Out of the 91 dogs involved, 2 were strays, 30 were unvaccinated, 59 were vaccinated against rabies.
- Out of the 45 cats involved, 23 were strays, 10 were unvaccinated, 13 were vaccinated against rabies.
- Two public health nurses became certified rabies observers in 2025 through the Wisconsin Department of Agriculture, Trade and Consumer Protection.

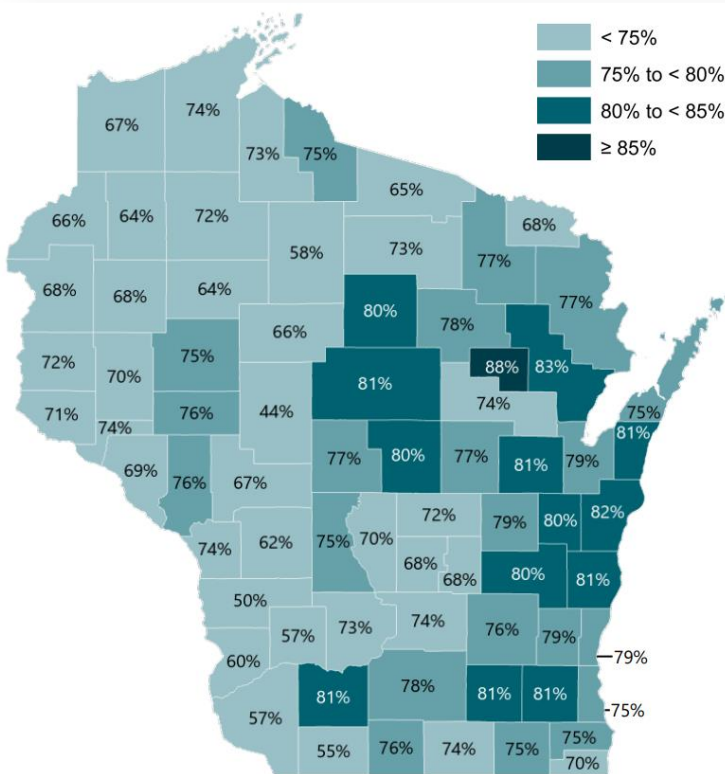

Immunizations

The Immunization Program remained a critical component of the health department's efforts to prevent vaccine-preventable diseases and protect community health over the past year. Through ongoing collaboration with healthcare providers, schools, and community partners, the department continued to work to increase vaccination coverage rates among residents of Grant County. Routine childhood immunizations, seasonal influenza vaccinations, and updated COVID-19 vaccine efforts were prioritized through clinics, mobile services, and public education campaigns. 2025 brought new immunization challenges that unfortunately deepened vaccine hesitancy nationwide. The Grant County Health Department continues to work toward being a trusted immunization provider.

The Health Department was also in the news in 2025, though unfortunately due to a low measles vaccination rate across the county. However, the coverage also highlighted a positive initiative—the launch of our mobile vaccine clinic. Using a county van, we meet Grant County residents wherever they feel most comfortable, bringing essential vaccines directly to them.

These photos below were taken when a Channel 27 reporter visited the Health Department to interview staff and capture images and video of our office and mobile clinic van.

For more information about statewide vaccination coverage, visit:

Chronic Disease & Injury Prevention

Car Seat Checks

Grant County continues to receive funding through the Wisconsin Department of Transportation to support a car seat program operated by the Health Department. Through this grant, the department is able to provide and properly install one free car seat for families or children in need. The Health Department now has four trained car seat technicians, following the completion of extensive training by two additional staff members in June 2025. This expanded capacity allows the team to offer child safety seat checks to anyone who needs assistance. In 2025, a total of 43 car seats were distributed. Health Department technicians also collaborate with local partners—including police departments, hospitals and clinics, and social services—to help ensure that every child in Grant County travels safely.

Rural Safety Day

For its 32nd year, Grant County Rural Safety Day took place on June 10th. Grant County Health Department has had the long-standing responsibility to coordinate the day's events. For 2025, there were 224 children in attendance, with close to 30 adult volunteers also in attendance. Rural Safety Day is a free, one-day safety camp for youth in grades 2-8. It is a day filled with educational sessions, hands-on activities and demonstrations. Rural Safety Day would not be the success that it is without the partnerships, donations, and community support.

Grant County Rural Safety Day 2025

Sharps Disposal

638 pounds of sharps medical waste was disposed of in 2025

Tobacco Prevention Education

Through a grant, that did unfortunately end in 2025, we were able to provide some tobacco prevention education to the Grant County schools. Below is a copy of a postcard we gave to all Grant County high schools to send home with each student.

We also share information regularly on our Facebook page regarding tobacco prevention. The Public health nurses are also all providers of the First Breath program through the Wisconsin Women’s Health Foundation. First Breath is a free statewide program that assists people in making healthy changes to their tobacco, alcohol, and other substance use during pregnancy and after. The nurses help enroll women and their caregivers to the program.

CPR Training

The Grant County Health Department has four certified CPR Instructors under the American Red Cross. In 2025, we held 5 trainings. We had one class for the public, two classes for jail staff, and two classes for the staff from the Health Department. The four trained instructors are able to certify healthcare professionals and the public in First Aid, CPR, and AED use.

New! Training for parents:

Talking to Your Child About Vaping:

A Guide for Parents, Guardians, and Caregivers

The American Lung Association's course Talking to Your Child About Vaping: A Guide for Parents, Guardians, and Caregivers is a free one-hour interactive online learning module designed to help parents, guardians and caregivers talk to their child, ages 8 to 20, about vaping and nicotine product use including e-cigarettes, vaping devices and oral nicotine pouches. Whether you are seeking to prevent your child from ever starting or needing to intervene with a child with a history of use, this training will provide you with the knowledge, skills and confidence to have an impactful conversation with your child.

Visit Lung.Training to access this free training today!

Lung.org

Environmental Health

Human Health Hazard Follow Up

In 2025, Grant County continued to share an Environmental Health Specialist with Lafayette and Iowa Counties.

The end of 2025 was spent largely training public health nursing staff to take over the Environmental Health duties starting in 2026 as we looked to replace our long-standing Environmental Health Specialist.

Below are the EH total contacts for 2025:

Number of Contacts	2023	2024	2025
Water	64	62	54
Air Quality	158	99	106
Asbestos	73	67	62
Lead Hazards	108	49	59
Radiation Hazards	127	90	74
Housing	209	102	123
Sewage	78	101	53
Solid Waste	208	115	116
Insects/Rodents/Animal Problems	62	65	52
Home Inspections	210	102	79
Totals	1,430	979	699

Lead

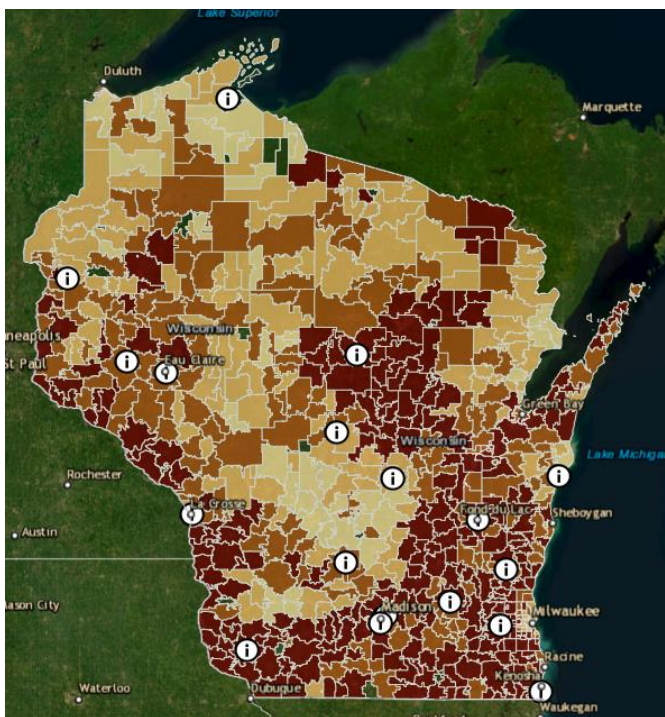

In 2025 the Health Department continued the Wisconsin Lead-in-Water Remediation grant which we originally started providing in 2024. We have completed 9 daycare checks in Grant County since we began the program. This program is provided in coordination with DHS WI and allows a public health nurse to go out and test for lead in the water sources of daycares and Head Start programs. The program then helps the impacted facilities remediate, for free, any possible findings of sources of lead.

The Health Department also continues to offer free lead screening for children. In 2025, 361 children received lead testing in Grant County according to the Healthy Homes and Lead Poisoning Surveillance System (HHLPSS). The Health Department worked to promote and educate the importance of lead screening in 2025.

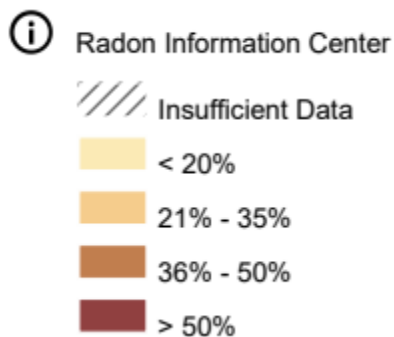

Radon

Grant County remained the Radon Information Center or RIC, for a six-county region (Grant, Iowa, Richland, Lafayette, Vernon, Crawford). The six counties serve as hubs for distribution of radon test kits. These test kits can be given to homeowners, with some education. In 2025, a total of 605 radon test kits were distributed. 68% of these tests were returned/completed with 133 returned test results falling between 4-8 picocuries per liter (pCi/L) and 128 tests resulting above 8(pCi/L). Radon mitigation is recommended if the results of two tests is greater than 4 (pCi/L).

This map is an interactive map of radon test results. The percentage is based those results that are greater than or equal to the EPA recommended limit of 4 pCi/L.

You can find this map, and more information about radon at:

<https://www.dhs.wisconsin.gov/radon/index.htm>

Water Testing

Through coordination with Wisconsin Well Testing Access Program and the Wisconsin State Laboratory of Hygiene (WSLH), the Health Department was able to provide free well water test kits to pregnant moms and households where a child under 1 year of age resided in 2025. We also continued to work with the Department of Health Services (DHS), WSLH, and our local wastewater treatment operators performing wastewater surveillance. Once a week a PH nurse obtains a sample of wastewater from the local wastewater plant and sends it in to the WSLH for testing. In 2025, the water was only tested for SARS-CoV-2 for Grant County, we are hoping to be a site with more testing in the future. If you visit the website below you can see more information about the Wisconsin Wastewater Monitoring Program.

<https://www.dhs.wisconsin.gov/wastewater>

Public Health Preparedness & Response

The Grant County Health Department continues to play a role in protecting community health during emergencies by maintaining a high level of preparedness, coordination, and response capability. Efforts in 2025 focused on strengthening preparedness plans, enhancing staff readiness, and deepening partnerships across agencies.

In 2025, the Grant County Health Department strengthened its emergency preparedness efforts through the following activities:

- The Health Department reviewed and updated its Public Health Emergency Preparedness (PHEP) Plan, Grant County Emergency Operations Plan (EOP), and its Continuity of Operations Plan (COOP) to ensure alignment with current public health guidelines and emerging threats.
- All employees stayed up to date on ICS trainings to strengthen staff response capabilities.
- The Health Department maintained strong partnerships with Grant County Emergency Management and local hospitals and clinics to support coordinated emergency response.
- Public Health continued as a member of the Southwest Wisconsin Healthcare Emergency Readiness Coalition (SCWIHERC). This allows the health department to engage in trainings, exercise opportunities, and a multitude of resources.
- Emergency Preparedness staff participated in a medical surge tabletop exercise in collaboration with local partners and SCWIHERC.
- Health Department staff completed respirator fit testing to ensure staff readiness for respiratory protection during public health emergencies.
- Emergency Preparedness staff completed the Functional Assessment Service Team (FAST) training through the Wisconsin Department of Health Services (DHS).
- Public Health hosted a measles response tabletop exercise with local partners to enhance infectious disease preparedness.
- Collaborated with Grant County Emergency Management to promote the CodeRed Alerting System

Maternal Child & Family Health

WIC

Grant County WIC operates within the Health Department, with a public health nurse also serving as the WIC Director. The WIC program is a supplemental nutrition and health initiative designed to improve the nutrition and overall well-being of families. The program functions under a Consolidated Contract with the Wisconsin Department of Health Services (DHS). For detailed grant funding amounts, refer to page 26.

In 2025, the Grant County WIC program served 1,056 participants, comparable to the 1,072 individuals served in 2024. The majority of WIC appointments continue to be conducted by phone, though efforts are underway to increase the number of in-person visits in the coming years.

A Management Evaluation was conducted in July 2025. During this evaluation, a State WIC Program Regional Consultant observed staff during appointments, reviewed the program budget and training logs, and assessed 113 criteria used to ensure high-quality services. The program was approved to continue operations, with the next Management Evaluation scheduled for 2027.

One thing I really like from participating in WIC is:

- *The support and knowing that I have resources to help feed my little one*
- *They listen to your need and questions and don't judge you. They are very helpful and informative!*
- *They are very understanding and listen to everything you have to say or ask.*
- *great support and help on health nutrition!*
- *Everyone is always so friendly and great to work with!*
- *Spanish participant translation: Thank you for giving good care*
- *It's honestly helped my family get healthier snack choices*
- *How sweet WIC employees are.*
- *The support and knowing that I have resources to help feed my little one*
- *having access to healthy recipes that support my family's needs.*
- *The staff are friendly & educational. They listen to me and answer any questions I may have.*

Also notable in 2025 was the government shutdown that lasted from October 1 to November 12. WIC benefits were fortunately not affected due to the availability of emergency funds. However, weekly updates were provided throughout the shutdown, along with contingency planning in case it had extended further and begun to impact benefits.

MCH (Maternal Child Health) -Home Visits-Healthy Beginnings

We held two Community Baby Showers in 2025. One was held in Lancaster in March, the other was held in Boscobel in June. During these events, we focus on our MCH objective, which for 2025 was Perinatal Mental Health. Mental health resources were available, as well as new mom and baby education/resources, to the participants. We are thankful to have community partners involved either through donations, or present at the events at booths.

We offer home visits for all mothers in Grant County. To support this service, we ask that hospitals notify us when a baby is born. Once we receive notification, we reach out to the family to offer a home visit. During the visit, we can complete a weight check and provide a goody bag that includes helpful information, community resources, and small gifts.

In addition, we offer a program called *Healthy Beginnings*. Through this program, a Public Health Nurse provides prenatal education to expectant mothers in coordination with their OB appointments. These visits typically take place in the mother's home or in another location where she feels most comfortable.

Access & Linkage to Care

School Health Services

Grant County public health nurses each take responsibility for specific schools in their area. They serve as consultants to these schools who are not able to employ a full-time school nurse. Grant County also provides immunization clinics and communicable disease support to schools that do have a full-time nurse, including Lancaster, Cassville, Boscobel, Platteville, and Riverdale. In 2025, we added the Fennimore School District to our list of schools we assist.

In 2025, nurses spent a total of 278 hours related to school health, this does not include the hours spent at the immunization clinics or on communicable disease efforts.

School districts we provided consultation services to in 2025:

Cuba City	St. Clement (Lancaster)
Potosi	Holy Ghost (Dickeyville)
River Ridge	Immaculate Conception (Kieler)
Southwestern	St. Andrews (Potosi)
St. Mary's (Bloomington)	St. Joseph (Sinsinawa)
St. Rose (Cuba City)	St. Charles (Cassville)
Fennimore	Amish/Mennonite Schools as needed

Jail Health

Public health nurses from the Health Department continue to offer jail health services to the Grant County Jail. All of the Public health nurses are trained on jail health including medication management, triage, withdrawal protocol, with two of these nurses primarily staffing the jail Monday through Friday during the day. In addition, all of the public health nurses are included in the on-call rotation, providing coverage to the jail as needed after hours, on weekends and holidays.

In 2025, the nurses spent 2,387 hours working in the jail. This averages to 45.9 hours per week. This was again an increase from 2024 when 45.6 hours were averaged. This is again in part to increasing mental health and substance abuse challenges, as well as the implementation of a new Electronic Medical Record that was put in place in 2025. This took extensive training for the nurses and jail staff.

Health Check

The Health Department continues to offer Health Checks to people aged birth to 21. The Health Checks are for anyone with Medicaid or no insurance, and provided preventative screenings including blood pressure checks, lead, iron, and blood sugar checks, weight and height measurements, immunizations, as well as a head-to-toe assessment.

Loan Closet

The Health Department operates a short-term use loan closet. Equipment can be picked up at the office, and kept for up to 3 months. Equipment available daily includes wheelchairs, shower chairs, walkers, commodes, transfer benches, and crutches to list the mainly requested items.

Equipment is available to anyone who lives in Grant County with a small deposit, usually at a maximum of \$20.00 for the 3 months of use.

Grant County Home Nursing

The Grant County Health Department is a proud provider of Home Nursing Services, delivering expert care to residents throughout the county in the comfort of their own homes. These services include skilled nursing, therapy services, and certified nursing assistant support.

Home Care Nurses provide personalized, one-on-one care tailored to each patient’s needs. Skilled nursing services may include IV therapy, complex wound care, post-operative care, medication management, and pain management, among other specialized medical treatments.

Therapy services are supported through partnerships with all three local hospitals, in addition to Health Department staff. In 2025, the department expanded its team by adding a Physical Therapy Assistant. The therapy team now includes a Limited-Term Employment (LTE) Physical Therapist, Physical Therapist Assistant, Occupational Therapist, and Certified Occupational Therapy Assistant. This comprehensive team helps ensure that Grant County residents have access to essential therapy services within their homes.

Due to staffing limitations, 2025 was another year in which the department could only serve a limited number of patients. However, the team welcomed a new Home Care Nurse in February 2025 and another in October 2025. Because in-home nursing requires extensive and specialized training, onboarding new staff is a time-intensive process before they can manage a full patient load.

As reflected in the data below, the total number of patients served decreased, while the number of prospective patients increased. With improved staffing levels, the department is optimistic that 2026 will allow for expanded capacity and the ability to serve more residents across Grant County.

Grant County Hospice

The Grant County Health Department is proud to offer an in-home hospice program. Hospice care services are designed to enhance quality of life while providing compassionate support to patients and their families in the comfort of their own homes or care facilities. Services include skilled nursing visits, care from certified nursing assistants, bereavement support, and volunteer services such as respite care.

The Grant County Hospice team consists of two nurses specially trained in hospice care, a hospice social worker, dedicated volunteers, a local pharmacist who specializes in compounding hospice-specific medications, a medical director, a spiritual counselor, and nurse practitioners. All staff members are local to Grant County and are deeply committed to supporting their patients and families.

In addition, Home Nursing staff are trained in hospice care and participate in the hospice on-call rotation. This ensures that all patients receiving care through the Health Department have access to a nurse at any time—day or night, including weekends and holidays.

Each year Grant County Hospice holds a Service of Remembrance. This service is put together by staff to honor the patients whom had passed during that year. During the 2025 Service of Remembrance, 43 patients were honored. This is an increase from the 34 patients honored during the 2024 service.

Hospice numbers increased for 2025, as noted in the graphs below.

Date: May 2026

Updates:

- I again would like to welcome you all to our Board of Health! We are excited to share our department with you all!
- We are finalizing preparations for our annual Rural Safety Day which will be June 9th this year. You are welcome to come up and see what happens during this fun day!
- Staffing update: We have had 2 new employees start since our last meeting. A Hospice nurse and an Administrative Assistant II/Fiscal. One more homecare/hospice nurse is set to start on May 18th.
- A lot of time in April was spent finalizing the 2025 Annual Report
- Still working out the kinks/learning the new Electronic Medical Record.
- Respiratory illness activity continues to decrease. COVID continues to be at a moderate level in our wastewater for the past 3 weeks.
- VFC (Vaccine for Children) site compliance visit done by our Wisconsin Department of Health Services Southern Immunization Advisor Wednesday May 6th. It went really well, we showed her the video of us in the news and that made her really happy!
- Working hard for staff appreciation! We recently celebrated Administrative Assistants and Nurses Weeks!

Assistant Director Report May 2026

-I would like to welcome Hazen Keller RN and Jill Koeller, administrative assistant, who joined our team in the last 2 weeks. We have one more nurse Addie Graffin starting May 18. She will start as part time and then transition to full time starting in August.

-Still have a few more patients in our old system. We will be fully transitioned with patients by May 22.

-We have seen improvement on getting claims out faster and getting revenue in since switching to MatrixCare

-I would like to thank all our Nurses as we wrap up Nurses week May 6-12. Kessa and I supplied ice cream and a small token of our appreciation.

-Ashley Sullivan -Beth Edge -Cari Ehlen -Casey Gradel -Charissa Fecht

-Heather Meier -Kim Martens -Michelle Young -Selina Baus

-Staci James-Sauer -Sydney Anderson -Tracy Mezera

-We also celebrated our Administrative Professional Day on April 22

-Cathy Bergles-Rosch -Denise Davis -Jamie Kreul -Shawn Handfelt -Lorna Wolf
