

GRANT COUNTY
CONSERVATION SANITATION AND ZONING DEPT
150 West Alona Lane, Suite #1, Lancaster, WI 53813 608/723-6080
Conservation, Sanitation & Zoning Committee Agenda

THE GRANT COUNTY CONSERVATION, SANITATION AND ZONING COMMITTEE will call the meeting to order on Thursday, July 2, 2026, at 9:00 a.m. in Grant County Board Room #264 in the Administration Building. Please use the following procedures to access the meeting remotely. Log into this site:

<https://co-grant-wi.gov.zoom.us/j/81791931685?pwd=iLTZgLbLrsSQ4bQU2n4zmwbiy3qYnl.1>

Call in number will be 1-312-626-6799, Meeting ID: 817-9193-1685, Passcode 717104. Please use the following procedures to access the meeting remotely. Please contact our office at 608-723-6080 with any questions.

Consideration will be given and/or action taken on any or all of the following agenda items:

1. Call to Order
2. Open Meeting Law
3. Roll Call
4. Approval of Agenda
5. Approval of June 4, 2026, Minutes
6. Review and Accept Bills
7. NRCS Report - Mike Adams
8. FSA Report - Emily Schildgen
9. Zoning/Sanitation Report - Keith
10. Discuss Previous FP Rezones - Keith
11. Discussion and Possible Action – Public Hearing for Rezones.
 - #RZ26-09, George Lazarus, applicant and landowner, to rezone 14.06 acres, more or less, from (FP Farmland Preservation to (A2) Agricultural 2 in the Town of Platteville. PIN:050-00901-0000 (pt) and 050-00893-0000 (pt)
 - #RZ26-10, Keith & Ruth Nolt, applicants and landowner, to rezone 6.5 acres, more or less, from (FP Farmland Preservation to (A2) Agricultural 2 in the Town of Hickory Grove. PIN:024-00203-0000 (pt)
12. Discussion and Possible Action – Public Hearing for Conditional Use Permits.
 - #CUP26-011, Keith & Ruth Nolt, applicants and landowners, for a conditional use permit for 6.5 acres, more or less of PIN:024-00203-0000 (pt) in the Town of Hickory Grove.
 - #CUP26-014, John & Catherine Youngbauer, applicant and landowner, for a conditional use permit for 2.167 acres, more or less of PIN:042-00121-0000 in the Town of Muscoda.
13. Definition of Construction – Keith
14. Development of Temporary Housing During Construction Phase - Keith
15. Discussion of Minimum Acreage for FP - Keith
16. Discussion of Minimum Acreage for Land Divisions - Keith
17. Discussion & Vote on Wingville Adoption of Data Center Moratorium - Keith
18. County Cost Sharing – Brady
19. SWRM Cost Sharing – Brady
20. CSZD Report – Keith
21. Set Date for Next Meeting
22. Adjourn

COMMITTEE MEETING

June 4, 2026

9:00 a.m.

Room #264, Grant County Board Room, Administration Building
Lancaster, Wisconsin

The Grant County Conservation, Sanitation & Zoning Committee meeting was called to order on June 4, 2026, at 9:00 a.m. by Joe Mumm, the Conservation, Sanitation, Zoning Committee Chairman in Room #264, County Board Room of the Administration Building.

Board members present in the County Board room #264: Joe Mumm, Roger Lange, Brian Lucey, Brian Johnsrud, Lynn Kirschbaum, and Ron McKelvey. Others present in the County Board room; Annette Lolwing, Keith Lane, Brady Bartels, Lucas Finley, Adam Reed, Shane Drinkwater, Robert Keeney, Nate Dreckman, Molly Mangan, Mark Lasko, Konrad Strzalka, Randall Nolt, Keith Nolt, Leon Martin, Drew Frey, Isaac Shanley, and Jake Yager. Those on Zoom: Tonya White, Keith Lane, Emily Schildgen, Robert Keeney, Jason Walter, County Board Room, Jane Patterson, Admin, Jim Bergles, and Herald Independent.

Certification of Open Meeting Law

Annette Lolwing sent the amended agenda to the County Clerk's office to post in the Administration Building, Courthouse, and on the County website. An amended agenda was also posted in front of the Ag Service Center Building. An amended agenda was also sent to Bob Middendorf, WGLR. Media notices were sent to the County Clerk's office, the Grant County Herald Independent, Muscoda Progressive, Fennimore Times, Boscobel Dial and Bob Middendorf.

Approval of June 4, 2026, Amended Agenda

Motion by Lynn Kirschbaum, seconded by Roger Lange to approve the amended agenda. Motion carried.

Approval of May 7, 2026, Minutes

Motion by Roger Lange, seconded by Brian Lucey to approve the May 7, 2026, minutes. Motion carried.

Review & Accept the May Bills

Motion by Brian Lucey, seconded by Brian Johnsrud, to accept the May bills. Motion carried.

NRCS Report – Mike Adams

None

FSA Report – Emily Schildgen

See Attachment A Worksheet.

Discussion & Possible Action – Data Center Moratorium Resolution

Keith Lane and Robert Keeney explained the Data Center Moratorium Resolution to the Conservation, Sanitation, and Zoning Committee. This is a 12-month moratorium. The moratorium is to buy some time for the Conservation, Sanitation, and Zoning Department to be able work on the zoning ordinance regarding data centers. Motion by Lynn Kirschbaum, seconded by Brian Johnsrud to move this Data Center Moratorium on to the full County Board. Motion carried.

all setbacks. Brian Lucey asked if there was any green space required for a school? Adam Reed stated that there will be no fence around the schoolhouse. They plan to crop as close as they can to the schoolhouse and to the septic system. Brian Lucey asked if there were any regulations regarding green space for a school. Chairman Mumm closed the Public Hearing.

Motion by Roger Lange, seconded by Brian Lucey to table this rezone as there is more research on the prime farmland to be done regarding this rezone request. Motion carried. See Attachment D Worksheet.

Public Hearing for Conditional Use Permits

Chairman Mumm opened the Public Hearing

#CUP26-011 Keith & Ruth Nolt, Hickory Grove Twp., we will pass on CUP26-010. CUP26-010 was not discussed because it is contingent of action to be taken on RZ26-10.

Chairman Mumm opened the Public Hearing

#CUP26-012 Kieler Farms, Paris Twp., are requesting a Conditional Use Permit on PIN:046-00058-0000, 046-00279-0000, 046-00280-0000, 046-00053-0000 & 046-00285-0000 +/- 113.0 ac. to allow for the use of nonmetallic mining under section 3.05 (e) (3) of the Grant County Comprehensive Zoning Ordinance.

In Favor: Paris Twp. approved on April 21, 2026. Jake Yager

In Opposition: None

In Interest: There were 3 conditions placed on the mining operation by the township. 1. There is a 5-year expiration. 2. Notify the neighbors prior to blasting. 3. Maintain the road to the current condition.

Committee Discussion: Robert Keeney asked why 5 parcels for the CUP when the quarry is located in 2 parcels. Jake Yager stated that the 5 parcels are for future expansion. Roger Lange mentioned that he was wondering if the quarry will go to the drainage ditch. Jake stated that no, they will not be crossing the drainage areas. Robert Keeney asked if this was a 3 year or a 5-year renewal. Lucas stated that it is a 5-year renewal.

Chairman Mumm closed the Public Hearing

Motion by Brian Lucey, to recommend approval of the Conditional Use Permit with the conditions of the township, seconded by Brian Johnsrud. Motion carried. See Attachment E Worksheet.

Chairman Mumm opened the Public Hearing

#CUP26-013 Eli & Nicole James, Harrison Twp., are requesting a Conditional Use Permit on PIN:020-00111-0000 +/- 28.58 ac. to allow for the continued use of nonmetallic mining under section 3.05 (E) (3) of the Grant County Comprehensive Zoning Ordinance.

In Favor: Harrison Twp. approved on May 18, 2026. Jake Yager

In Opposition: None

In Interest: Harrison township placed a condition that most of the truck traffic should exit to the North.

Conditional Use Permit is good for 5 years.

Committee Discussion: None

Chairman Mumm closed the Public Hearing

Motion by Brian Johnsrud to recommend approval of the Conditional Use Permit, seconded by Lynn Kirschbaum. Motion carried. See Attachment F Worksheet

Public Hearing for Final Plat Approval

Chairman Mumm opened the Public Hearing

#PPF26-001 Frey Real Estate Holdings LLC, Boscobel Twp., is requesting a Final Plat Approval on PIN:006-00303-0000, 006-00303-0030, 006-00287-0000, 006-00304-0000 (pt) +/- 21.0 ac to allow for the use of a subdivision.

In Favor: Boscobel Twp. approved on April 21, 2026. Drew Frey

In Opposition: The final plat has been approved at the state level by the Wisconsin Department of Administration.

In Interest: None

6. Brady has had one stream crossing installed so far this spring.

Zoning:

1. Adam has had 13 preconstruction inspections, 1 post construction site visit.
2. Lucas and Keith have been out on two 2026 pre-construction inspections.
3. There have been several zoning/sanitation complaints this month.
4. We have a BOA (Board of Adjustment) meeting scheduled for June 24th @ 2:00 covering a variance for building inside a road setback

Sanitation:

1. Jim has completed 12 installations that have been completed to date.
2. Complaint about campers being pulled into Glen Haven with no septic, just port-a-potties. Is being pursued.
3. Complaint about open sewage in Jamestown Twp. resulted in verifying a failed system and OFC.
4. Working with a landowner across from the Tennyson wayside. We have had multiple complaints on this site. Met onsite with Health Department. Working with the Veterans Office and Health Department to help the landowner address his problems.
5. Working with the Veterans Office to help a landowner that has no power or water. Working with the landowner to get a privy in place.

Notes: There is a Zoning Board of Adjustment & Appeals Workshop, June 25th in Waushara County.

There is also the Southern Area Association's Tour on August 12, 2026, in Madison.

Potosi schools sent a Thank you card for hosting the spring soil judging workshop.

The next meeting will be on July 2, 2026, at 9:00 a.m.

Motion by Lynn Kirschbaum, seconded by Roger Lange to adjourn the meeting at 10:40 a.m.

Motion carried.

Respectfully Submitted by Annette Lolwing

Review of Standards for Rezoning Land out of Farmland Preservation

Date: 6/4/26 Landowner: Dutch Springs LLC

The Grant County Board may not rezone land out of a farmland preservation zoning district unless the Grant County Zoning and Sanitation Committee finds all of the following in writing, after public hearing, as part of the official record of the rezoning:

1. The rezoned land is better suited for a use not allowed in the farmland preservation zoning district.

Yes or No Explain: 0.0 ac in prime farmland

2. The rezoning is consistent with any comprehensive plan, adopted by the Grant County Board which is in effect at the time of the rezoning.

Yes or No or N/A

Explain: This ± 1.0 ac are planned to be used for a cabin & existing parcel does not meet the 3.0 ac minimum for FP

3. The rezoning is substantially consistent with the Grant County farmland preservation plan policy.

3.1: Non-farm development will be directed to non-agricultural soils or less productive agricultural soils, consistent with the needs of the development. Yes No

3.2 Non-farm development will be directed to areas where it will cause minimum disruption of established farm operations or damage to environmentally sensitive areas. Yes No

3.3 Non-farm development will be encouraged to locate so as to leave a maximum amount of farmland in farmable size parcels. Yes No

3.4 Non-farm residential development will be directed to existing platted subdivisions and sanitary districts. Yes No

3.5 Agriculturally-related development, while not discouraged in rural areas, will still comply with other policies set forth in this section, consistent with being located where it will be a maximum benefit to agriculture. Yes No

4 The rezoning will not substantially impair or limit current or future agricultural use of other protected farmland.

- 4.1 Located in a Farmland preservation zoning district
4.2 Covered by a Farmland Preservation Agreement
4.3 Covered by an agricultural conservation easement
4.4 Otherwise legally protected from nonagricultural development

Yes or No

Explain: 0 acres in this rezone are listed as prime farmland

5 The CSZC recommends does not recommend approval to the Grant County Board of Supervisors (Circle one)

Review of Standards for Rezoning Land out of Farmland Preservation

Date: 6/4/26 Landowner: Keith & Ruth Nalt

The Grant County Board may not rezone land out of a farmland preservation zoning district unless the Grant County Zoning and Sanitation Committee finds all of the following in writing, after public hearing, as part of the official record of the rezoning:

1. The rezoned land is better suited for a use not allowed in the farmland preservation zoning district.

Yes or No Explain: 3.6 acres in prime farmland

2. The rezoning is consistent with any comprehensive plan, adopted by the Grant County Board which is in effect at the time of the rezoning.

Yes or No or N/A

Explain: This ± 6.5 ac are planned to be used for a private school to meet dimensional & setbacks requirements.

3. The rezoning is substantially consistent with the Grant County farmland preservation plan policy.

3.1: Non-farm development will be directed to non-agricultural soils or less productive agricultural soils, consistent with the needs of the development. Yes No

3.2 Non-farm development will be directed to areas where it will cause minimum disruption of established farm operations or damage to environmentally sensitive areas. Yes No

3.3 Non-farm development will be encouraged to locate so as to leave a maximum amount of farmland in farmable size parcels. Yes No

3.4 Non-farm residential development will be directed to existing platted subdivisions and sanitary districts. Yes No

3.5 Agriculturally-related development, while not discouraged in rural areas, will still comply with other policies set forth in this section, consistent with being located where it will be a maximum benefit to agriculture. Yes No

4 The rezoning will not substantially impair or limit current or future agricultural use of other protected farmland.

- 4.1 Located in a Farmland preservation zoning district
- 4.2 Covered by a Farmland Preservation Agreement
- 4.3 Covered by an agricultural conservation easement
- 4.4 Otherwise legally protected from nonagricultural development

Yes or No

Explain: 3.6 acres in this rezone are listed as prime farmland

5 The CSZC recommends/does not recommend approval to the Grant County Board of Supervisors

tabled

FINDINGS OF FACT AND CONCLUSION

1. The CSZC (hereinafter referred to as the agency) has the authority pursuant to the Grant County Comprehensive Zoning Ordinance Ch. 315 Subsection 3.27 (5) to issue or deny conditional use permits. Prior to granting or denying a conditional use, the agency shall make a findings of fact based on evidence presented, issue a determination whether the standards of the ordinance are met, and require additional conditions, as needed. Based upon the above findings and information provided at the public hearing, the CSZD finds that the conditional use does or does not meet the following criteria:
2. The agency under Ch. 315 Subsection 3.27 (5) (c) shall consider the following criteria:

- (1) That the establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare;
- (2) That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood;
- (3) That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district;
- (4) That adequate utilities, access roads, drainage and/or necessary facilities have been or are being provided;
- (5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets;
- (6) That adequate prevention and control of water pollution including sedimentation are being provided;
- (7) That adequate measures will be taken to sustain existing topographic and drainage features and vegetation cover on the site;
- (8) That adequate location of the site with respect to flood plains and floodways of bodies of water;
- (9) That adequate consideration of erosion potential of the site based upon degree and direction of slope, soil type and vegetation cover;
- (10) That location factors are considered which address:
 - (a) Domestic uses shall be generally preferred;
 - (b) Uses not inherently a source of pollution within an area shall be preferred over uses that are or may be a pollution source; and
 - (c) Use locations within an area tending to minimize the possibility of pollution shall be preferred over use locations tending to increase the possibility.
- (11) That the conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified by the Conservation, Sanitation & Zoning Committee; and
- (12) In the case of nonmetallic mining, the Conservation, Sanitation, & Zoning Committee shall also consider any reclamation plan submitted for the property and the reclamation plan's provisions for maintaining lateral support and for depth of the quarry pursuant to the standards set forth in Wisconsin Administration code Chapter NR 136.

FINDINGS OF FACT AND CONCLUSION

1. The CSZC (hereinafter referred to as the agency) has the authority pursuant to the Grant County Comprehensive Zoning Ordinance Ch. 315 Subsection 3.27 (5) to issue or deny conditional use permits. Prior to granting or denying a conditional use, the agency shall make a findings of fact based on evidence presented, issue a determination whether the standards of the ordinance are met, and require additional conditions, as needed. Based upon the above findings and information provided at the public hearing, the CSZD finds that the conditional use does or does not meet the following criteria:

2. The agency under Ch. 315 Subsection 3.27 (5) (c) shall consider the following criteria:
 - (1) That the establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare;
 - (2) That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood;
 - (3) That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district;
 - (4) That adequate utilities, access roads, drainage and/or necessary facilities have been or are being provided;
 - (5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets;
 - (6) That adequate prevention and control of water pollution including sedimentation are being provided;
 - (7) That adequate measures will be taken to sustain existing topographic and drainage features and vegetation cover on the site;
 - (8) That adequate location of the site with respect to flood plains and floodways of bodies of water;
 - (9) That adequate consideration of erosion potential of the site based upon degree and direction of slope, soil type and vegetation cover;
 - (10) That location factors are considered which address:
 - (a) Domestic uses shall be generally preferred;
 - (b) Uses not inherently a source of pollution within an area shall be preferred over uses that are or may be a pollution source; and
 - (c) Use locations within an area tending to minimize the possibility of pollution shall be preferred over use locations tending to increase the possibility.
 - (11) That the conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified by the Conservation, Sanitation & Zoning Committee; and
 - (12) In the case of nonmetallic mining, the Conservation, Sanitation, & Zoning Committee shall also consider any reclamation plan submitted for the property and the reclamation plan's provisions for maintaining lateral support and for depth of the quarry pursuant to the standards set forth in Wisconsin Administration code Chapter NR 136.

FSA Notes – July CSZD Meeting

Assistance for Specialty Crop Farmers (ASCF) program opened on June 8, 2026. This program is the equivalent of the FBA program we recently had, but specifically for specialty crop producers. The National office put out a list of specialty crops that are eligible for the program each at one of 4 payment levels. Producers had to have reported their 2025 crops by April 24, 2026 to be eligible for this program. Grant County will have about a dozen applications.

Supplemental Disaster Relief Program (SDRP) is for producers who suffered a crop or quality loss in calendar year 2023 or 2024 due to a disaster event. This program initially opened in August 2025 with multiple stages of the program opening throughout the last year. The deadline of August 12, 2026 for all stages of this program was recently announced.

COC Election nominations opened on June 15, 2026 and run through August 3, 2026. This year LAA #2 is up for election which is the northeastern part of the county and includes Waterstown, Muscoda, Castle Rock, Hickory Grove, Marion, Mount Ida, Fennimore, Wingville, Clifton, Liberty, and North Lancaster townships. Currently Mark Loy is the representative for LAA 2 and he has agreed to run for another term.

Important dates to remember (previously discussed):

May 15 – August 1: Conservation Reserve Program (CRP) – Primary Nesting Season (PNS)

July 15, 2026: Spring crop reporting deadline

August 3, 2026: COC election nominations due for LAA #2

August 7, 2026: Assistance for Specialty Crop Farmers (ASCF) signup deadline

August 12, 2026: SDRP signup deadline

Implementation

Introduction

The purpose of any plan is to offer a guide for future actions. However, if attempts are not made to carry out the plan, the effort and thought put into it will be wasted. Consequently, this section of the Grant County Farmland Preservation Plan details the goals, policies, and actions that are being taken and could be taken to preserve and promote the wise use of agricultural and other resources in Grant County.

Goals & Policies

Goals and policies are the framework around which the development, adoption, and implementation of the Farmland Preservation Plan are built. Goals are future situations which are thought to be desirable, and policies describe the approach which will be taken in order to achieve those goals. Actions are the specific methods to execute the policies.

The following goals and policies have been developed as a result of comments received and views expressed at public meetings and consideration of established County land use policies and accepted planning principles. The goals and policies affect all County residents but are specifically focused on farmland and the agricultural situation.

GOAL 1: AGRICULTURAL LAND PRESERVED FOR AGRICULTURAL USE

- Policy 1.1: Land in productive farm operations, in addition to important farmlands as defined by the Soil Conservation Service, will be maintained for present and future agricultural use by all means available. Other County policies and action must take this policy into consideration.
- Policy 1.2: Land to be preserved is generally identified on the farmland preservation areas map included as an integral part of this plan.
- Policy 1.3: Grant County will continue to use its certified zoning as part of the county's zoning ordinance. Towns will be encouraged to utilize this zoning if they feel it is necessary to protect farmland in their township.

GOAL 2: SOIL EROSION REDUCED TO A MINIMUM THROUGH INCREASED USE OF SOIL CONSERVATION MEASURES

- Policy 2.1: All rural landowners will be encouraged to become cooperators with the Grant County Conservation, Sanitation, & Zoning Department and to implement the conservation plans developed by the landowner and the LCD.
- Policy 2.2: Increased levels of funding will be sought for financing conservation measures so that the cost of installing and maintaining conservation practices are not borne entirely by the present landowner.
- Policy 2.3: Educational efforts stressing the need for soil conservation as the preservation of an irreplaceable natural resource will be encouraged.

GOAL 3: ENVIRONMENTAL AREAS PRESERVED AND PROTECTED

- Policy 3.1: Areas of environmental significance, especially those located within environmental corridors as defined and indicated in this plan, will be preserved and protected for present and future use consistent with their limitations and capabilities. Private as well as public methods to preserve these areas will be encouraged as will innovative methods of protection.

Subject: [EXTERNAL SOURCE] 06/04/2026 meeting

Good afternoon Mr Mumm,

I was in attendance at yesterday's meeting. My interest in the meeting was the George Lazarus development.

The outcome of yesterday's meeting is not what I was expecting. But at the same time I will tell you that it came of no surprise to me.

That being said, I do have a couple of questions from yesterday that I would like to get answers to.

*As of the date of yesterdays meeting, what specific standards of Grant county's zoning regulations did the proposed lots / development not meet?

*As of the date of yesterdays meeting, what proposed developments in the town of Platteville have been denied using the same questions that were brought up yesterday?

Comments, I'll keep them brief at this time.

I noticed that I was the only person in attendance for this proposed development. No one in opposition attended.

I noticed that no one in opposition registered against the proposed development by phone / or email.

I am not sure if you are aware, but the town and county have previously approved six lots located less than 500' NE of this proposed development. Same road just on the opposite side of road.

The town and county have approved multiple and continue to approve multiple developments on the North side of town. (Abing property)

The town of Platteville's planning committee and full board have reviewed this proposal twice. After some suggestions from the first time it was brought forward and some changes were made, the town unanimously approved the proposed development.

I look forward to receiving the answers to my questions.

- surrounding parcels of land that are zoned for, or legally restricted to agricultural use.
- (e) Construction damage to land remaining in agricultural use is minimized and repaired, to the extent feasible.
- (2) Governmental, institutional, religious, or nonprofit community uses, if all of the following apply:
- (a) The use and its location in the farmland preservation zoning district are consistent with the purposes of the farmland preservation zoning district.
 - (b) The use and its location in the farmland preservation zoning district are reasonable and appropriate, considering alternative locations, or are specifically approved under state, or federal law.
 - (c) The use is reasonably designed to minimize the conversion of land, at and around the site of the use from agricultural use, or open space use.
 - (d) The use does not substantially impair, or limit the current, or future agricultural use of surrounding parcels of land that are zoned for, or legally restricted to agricultural use.
 - (e) Construction damage to land remaining in agricultural use is minimized and repaired to the extent feasible.
- (3) Nonmetallic mineral extraction, if all of the following apply:
- (a) The operation complies with Subchapter I of Chapter 295, Wisconsin Statutes, and rules promulgated under that subchapter, with applicable provisions of local Ordinances under Wis. Stat. § 295.13, or Wis. Stat. § 295.14 (including all applicable provisions of this Ordinance), and with any applicable requirements of the department of transportation concerning the restoration of nonmetallic mining sites.
 - (b) The operation and its location in the farmland preservation zoning district are consistent with the purposes of the farmland preservation zoning district.
 - (c) The operation and its location in the farmland preservation zoning district are reasonable and appropriate, considering alternative locations outside the farmland preservation zoning district, or are specifically approved under state, or federal law.
 - (d) The operation is reasonably designed to minimize the conversion of land around the extraction site from agricultural use, or open space use.
 - (e) The operation does not substantially impair, or limit the current, or future agricultural use of surrounding parcels of land that are zoned for, or legally restricted to agricultural use.
 - (f) The owner agrees to restore the land to agricultural use, consistent with any required reclamation plan, when extraction is completed.
- (4) Oil and gas exploration, or production that is licensed by the department of natural resources under Subchapter II of Chapter 295, Wisconsin Statutes.

F. REZONING LAND OUT OF A FARMLAND PRESERVATION ZONING DISTRICT

Except as provided in subsection (2), the Grant County CSZ Committee may not rezone land out of a Farmland Preservation district unless the Grant Co. CSZ Committee finds all of the following in writing, after public hearing, as part of the rezoning official record:

- (1) Principles guiding the Grant Co. CSZ Committee rezoning decisions.
 - (a) The rezoned land is better suited for a use not allowed in the Farmland Preservation district.
 - (b) The rezoning is consistent with the Grant County Comprehensive Plan.
 - (c) If the request to rezone the land is not consistent with the Grant County Comprehensive Plan does the Town approve of amending the Comprehensive Plan Map to allow the

Rezone # 20-01
 parcel # 024-00725-0000

Farmland Classification

FP - Standards - majority of development already present on prime farmland soil.

Map unit symbol	Map unit name	Rating	Acres in AOI	Percent of AOI
1130F	Lacrescent-Dunbarton complex, very stony, 30 to 60 percent slopes	Not prime farmland	0.1	4.0%
Ar	Arenzville silt loam, 0 to 3 percent slopes, occasionally flooded	All areas are prime farmland	1.5	45.9%
HfF2	Hixton fine sandy loam, 20 to 30 percent slopes, moderately eroded	Not prime farmland	1.6	50.1%
Totals for Area of Interest			3.2	100.0%

Description

Farmland classification identifies map units as prime farmland, farmland of statewide importance, farmland of local importance, or unique farmland. It identifies the location and extent of the soils that are best suited to food, feed, fiber, forage, and oilseed crops. NRCS policy and procedures on prime and unique farmlands are published in the "Federal Register," Vol. 43, No. 21, January 31, 1978.

Rating Options

Aggregation Method: No Aggregation Necessary

Tie-break Rule: Lower

Rezone # 20-02 2020
 Parcel # 020-00828-0000

Farmland Classification

FP Standards - Non prime farmland soil present & development already present on prime farmland soil.

Map unit symbol	Map unit name	Rating	Acres in AOI	Percent of AOI
175C2	Palsgrove silt loam, 6 to 12 percent slopes, moderately eroded	Farmland of statewide importance	0.5	16.5%
FaB2	Fayette silt loam, 2 to 6 percent slopes, moderately eroded	All areas are prime farmland	1.7	58.9%
FaC2	Fayette silt loam, 6 to 12 percent slopes, moderately eroded	Farmland of statewide importance	0.7	24.6%
Totals for Area of Interest			2.9	100.0%

Description

Farmland classification identifies map units as prime farmland, farmland of statewide importance, farmland of local importance, or unique farmland. It identifies the location and extent of the soils that are best suited to food, feed, fiber, forage, and oilseed crops. NRCS policy and procedures on prime and unique farmlands are published in the "Federal Register," Vol. 43, No. 21, January 31, 1978.

Review of Standards for Rezoning Land out of Farmland Preservation

Date: February 25, 2021 Landowner: Reddy Ag Service, Inc.

The Grant County Board may not rezone land out of a farmland preservation zoning district unless the Grant County Zoning and Sanitation Committee finds all of the following in writing, after public hearing, as part of the official record of the rezoning:

1. The rezoned land is better suited for a use not allowed in the farmland preservation zoning district.

Yes or No

Explain: The rezoning to a light industrial zoning district will make the zoning for this parcel consistent with the zoning for the other lands owned by Reddy Ag Service Inc directly to the south of this parcel. Additionally, this parcel is adjacent to residential property and other developed property within Stitzer.

The rezoned land is going to continue to be used in a manner that is allowed in the farmland preservation zoning district. The land is going to be used for agriculture related warehousing – seed and fertilizer.

2. The rezoning is consistent with any comprehensive plan, adopted by the Grant County Board which is in effect at the time of the rezoning.

Yes or No or N/A

Explain: The Town of Liberty Board found the rezone to be consistent with the comprehensive plan on February 9, 2021.

3. The rezoning is substantially consistent with the Grant County farmland preservation plan policy.

3.1: Non- farm development will be directed to non-agricultural soils or less productive agricultural soils, consistent with the needs of the development. Yes No

3.2 Non-farm development will be directed to areas where it will cause minimum disruption of established farm operations or damage to environmentally sensitive areas. Yes No

3.3 Non-farm development will be encouraged to locate so as to leave a maximum amount of farmland in farmable size parcels. Yes No

3.4 Non-farm residential development will be directed to existing platted subdivisions and sanitary districts. Yes No

***There is no residential development associated with this rezone request.**

3.5 Agriculturally-related development, while not discouraged in rural areas, will still comply with other policies set forth in this section, consistent with being located where it will be a maximum benefit to agriculture. Yes No

4. The rezoning will not substantially impair or limit current or future agricultural use of other protected farmland.

4.1 Located in a Farmland preservation zoning district

4.2 Covered by a Farmland Preservation Agreement

4.3 Covered by an agricultural conservation easement

Subject: Klinger CSM - Prelim1

To all,
 I have attached a CSM for review. I would like feedback from the town and county if they want a certificate of approval on the map and the person who would sign. I currently have certificates for both on the map, so let me know if I should edit them or remove them.
 Thanks,
 Mike

TaB	Tama silt loam, driftless, 2 to 6 percent slopes	All areas are prime farmland	3.1	75.1%
Totals for Area of Interest			4.1	100.0%

Description

Farmland classification identifies map units as prime farmland, farmland of statewide importance, farmland of local importance, or unique farmland. It identifies the location and extent of the soils that are best suited to food, feed, fiber, forage, and oilseed crops. NRCS policy and procedures on prime and unique farmlands are published in the "Federal Register," Vol. 43, No. 21, January 31, 1978.

Rating Options

Aggregation Method: No Aggregation Necessary

Tie-break Rule: Lower

* Even though the development would occur on prime farmground soil, it is adjacent to existing non-farm commercial development.

PLAT OF SURVEY

DESCRIPTION:

Located in the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) of Section Ten (10), Township Seven (7) North, Range Two (2) West of the 4th P.M., Town of Hickory Grove, Grant County, Wisconsin, and being described as follows:

Commencing at the North Quarter (N 1/4) corner of said Section 10;
thence North $88^{\circ} 47' 16''$ West 599.11 feet along the North line of said Section to a corner of that property as described in Document Number 821140, Grant County Registry;
thence South $04^{\circ} 48' 50''$ West 599.71 feet along the previously described centerline of County Highway "T" as described in said Document Number 821140 to the point of beginning;
thence continuing South $04^{\circ} 48' 50''$ West 673.86 feet along said centerline described in Document Number 821140 to the Northwest corner of that property as described in Document Number 460830, Grant County Registry;
thence South $85^{\circ} 41' 10''$ East 258.00 feet along the North line of said property described in Document Number 460830 to the Northeast corner thereof;
thence continuing South $85^{\circ} 41' 10''$ East 275.16 feet;
thence North $04^{\circ} 48' 50''$ East 388.75 feet;
thence North $57^{\circ} 26' 22''$ West 602.41 feet to the point of beginning.

SURVEYOR'S CERTIFICATE:

I, Aaron J. Austin, Professional Wisconsin Land Surveyor, hereby certify:

That the above description was surveyed, mapped and monumented as shown on this plat by me or under my direct supervision and field work was completed on 5-1-2026.

That this survey was prepared under the instructions of Randal Nolt.

That this survey complies with Chapter A-E 7 of the Wisconsin Administrative Code and to the best of my knowledge and belief, this plat is an accurate representation thereof.

That all plans that do not show a seal imprint in red ink may contain unauthorized alterations.

The certification contained on this document shall not apply to any copies.

Dated this 1st day of May, 2026.

Wisconsin School Green Space Requirements

Wisconsin does **not** have a state law or administrative rule that mandates a specific minimum amount of green space per student in school grounds. Instead, green space requirements are addressed through **voluntary environmental and wellness programs** and **best practices**.

No Legal Minimum

The Wisconsin Department of Public Instruction (DPI) states there is **no current law or rule** setting a required square footage or acreage of green space for school grounds [Wisconsin Department of Public Instruction](#). Local building codes or fire codes may set building capacity limits, but these do not directly regulate outdoor green space.

Green & Healthy Schools Program

The **Green & Healthy Schools Wisconsin** program, a joint effort between DPI and the Wisconsin Department of Natural Resources, encourages schools to create and maintain healthy, safe, and environmentally friendly learning environments [Wisconsin Department of Public Instruction+1](#).

- **School Grounds Goal:** The “Increase Environmental Literacy” goal promotes using school grounds as a “living classroom” to support student well-being, environmental awareness, and outdoor learning [green-and-healthy-schools-wi-dnr.hub.arcgis.com](#).
- **Recognition Levels:** Schools can earn badges (Sprout, Seedling, Sapling, Sugar Maple) and the **Wisconsin Stewardship and Sustainability Award** for integrating green space into curriculum and operations [Wisconsin Department of Natural Resources \(DNR\)+1](#).
- **Best Practices:** Examples include building outdoor classrooms, creating habitat areas, and integrating biodiversity assessments into school activities [green-and-healthy-schools-wi-dnr.hub.arcgis.com](#).

Health & Wellness Considerations

While not a legal requirement, the program’s **Improve Health & Wellness** goal recommends:

- Providing safe, accessible outdoor areas for physical activity and rest.
- Integrating environmental health into facility design and maintenance.
- Encouraging students to spend time outdoors for mental and physical health benefits [green-and-healthy-schools-wi-dnr.hub.arcgis.com](#).

Practical Guidance

If you are planning or redesigning school grounds:

- Use the **Schoolyard Habitat Project Guide** from U.S. Fish and Wildlife Service to plan and sustain green space [green-and-healthy-schools-wi-dnr.hub.arcgis.com](#).
- Align with **WI Environmental Literacy Standards** to connect outdoor spaces to curriculum [green-and-healthy-schools-wi-dnr.hub.arcgis.com](#).
- Consider student and staff input to ensure the space is used for learning, recreation, and environmental education.

In summary: Wisconsin does not legally require a set amount of green space per student, but schools are strongly encouraged—through voluntary programs and wellness goals—to create and maintain green, safe, and educational outdoor areas that support student health, environmental literacy, and community engagement.

Subject: [EXTERNAL SOURCE] RE: Grant County Nolt School House Proposal

Hi Adam,

Thanks for reaching out and inquiring about the Dairyland property.
We don't have any issues with buildings this far out from the property line.

I'll put this information in our file.

Mike Lydon

Professional Land Surveyor
Dairyland Power Cooperative

Subject: [EXT] Grant County Nolt School House Proposal

Mimecast Attachment Protection has deemed this file to be safe, but always exercise caution when opening files.

Michael,

Shane Crowley from Scenic Rivers gave me your email address.

I am reaching out to you on behalf of a Mennonite School House proposal located here in Grant County, Hickory Grove Township. This will be a private 2 room school house for approximately 40 students.

We are in the process of approving the school house and am checking to see if there are any enforceable horizontal building setbacks Dairyland Power may have from the north property line of the power substation located on PIN 24-10 (see attached arial and survey map) ?

As shown on Preliminary Plat of Survey map, the school house would be located approximately 210' north of the substation property line.

We currently do not have any horizontal required building setbacks in our Grant County Comprehensive Zoning Ordinance regarding power substations. We do require a minimum building setback of 200' from all property lines for school houses.

Respectfully,

Adam Reed

NOTICE OF PUBLIC HEARING BEFORE THE GRANT COUNTY
CONSERVATION, SANITATION & ZONING COMMITTEE

NOTICE IS HEREBY GIVEN that a public hearing will be held on Thursday, July 2, 2026 at 9:00 a.m. in Grant County Board Room #264 in the Administration Building, 111 S Jefferson St., Lancaster, WI 53813 to consider the following items. If you are interested in reviewing the detailed land descriptions or would like to request additional information, please contact the Grant County Conservation, Sanitation & Zoning Dept. (608) 723-6080. If you would like to provide written comment for the committee members, it must be submitted to our department five business days prior to the public hearing.

If you would like to participate in the meeting but can't attend in person, please utilize the following Zoom link or dial-in info:

<https://co-grant-wi-gov.zoom.us/j/81791931685?pwd=iLTZgLbLrsSQ4bQU2n4znmwbiy3qYnI.1>

BEFORE GRANT COUNTY
CONSERVATION, SANITATION AND ZONING DEPARTMENT

CONDITIONAL USE PERMIT
FOR KEITH & RUTH NOLT
PIN:024-00203-0000(P.T), HICKORY GROVE TOWNSHIP, GRANT COUNTY, WI

FINDINGS OF FACT

The agency finds that:

1. Keith & Ruth Nolt own property located within the NE ¼ of the NW ¼ of Section 10, T7N, R2W in Hickory Grove Township, Grant County, WI. Such property consists of tax parcel numbers PIN:024-00203-0000(pt).
2. On April 15th, 2026, the Conservation, Sanitation and Zoning Department (CSZD) discussed onsite the permitting required for a school house on PIN:024-00203-0000(pt) which included obtaining a Rezone, Conditional Use Permit, and Zoning Permit.
3. On May 5th, 2026, the Hickory Grove Township Town Board recommended approval for the CUP. 3 were in favor, 0 opposed, and 0 abstained. No conditions were placed by the Town Board on the permit.
4. On May 13th, 2026, the CSZD office received the completed application.
5. On May 21st, 2026 and May 28th, 2026, a public notice was published in the County's official newspaper for the CUP request.
6. On July 2nd, 2026, the CSZC reviewed the CUP request through a public hearing and determined the findings of fact to **approve** or **deny** the CUP application.

FINDINGS OF FACT AND CONCLUSION

1. The CSZC (hereinafter referred to as the agency) has the authority pursuant to the Grant County Comprehensive Zoning Ordinance Ch. 315 Subsection 3.27 (5) to issue or deny conditional use permits. Prior to granting or denying a conditional use, the agency shall make a findings of fact based on evidence presented, issue a determination whether the standards of the ordinance are met, and require additional conditions, as needed. Based upon the above findings and information provided at the public hearing, the CSZD finds that the conditional use **does** or **does not** meet the following criteria:

2. The agency under Ch. 315 Subsection 3.27 (5) (c) shall consider the following criteria:
 - (1) That the establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare;
 - (2) That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood;
 - (3) That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district;
 - (4) That adequate utilities, access roads, drainage and/or necessary facilities have been or are being provided;
 - (5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets;
 - (6) That adequate prevention and control of water pollution including sedimentation are being provided;
 - (7) That adequate measures will be taken to sustain existing topographic and drainage features and vegetation cover on the site;
 - (8) That adequate location of the site with respect to flood plains and floodways of bodies of water;
 - (9) That adequate consideration of erosion potential of the site based upon degree and direction of slope, soil type and vegetation cover;
 - (10) That location factors are considered which address:
 - (a) Domestic uses shall be generally preferred;
 - (b) Uses not inherently a source of pollution within an area shall be preferred over uses that are or may be a pollution source; and
 - (c) Use locations within an area tending to minimize the possibility of pollution shall be preferred over use locations tending to increase the possibility.
 - (11) That the conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified by the Conservation, Sanitation & Zoning Committee; and
 - (12) In the case of nonmetallic mining, the Conservation, Sanitation, & Zoning Committee shall also consider any reclamation plan submitted for the property and the reclamation plan's provisions for maintaining lateral support and for depth of the quarry pursuant to the standards set forth in Wisconsin Administration code Chapter NR 136.

CONDITIONAL USE PERMIT
FOR JOHN & CATHERINE YOUNGBAUER
PIN:042-00121-0000, HICKORY GROVE TOWNSHIP, GRANT COUNTY, WI

FINDINGS OF FACT

The agency finds that:

1. John & Catherine Youngbauer own property located within the SE ¼ of the SE ¼ of Section 02, T8N, R1W in Muscoda Township, Grant County, WI. Such property consists of tax parcel number PIN:042-00121-0000.
2. On April 14th, 2026, the Conservation, Sanitation and Zoning Department (CSZD) discussed the permitting required for an accessory structure prior to a principal structure on PIN:042-00121-0000 which included obtaining a Conditional Use Permit and Zoning Permit.
3. On May 13th, 2026, the Muscoda Township Town Board recommended approval for the CUP. 3 were in favor, 0 opposed, and 0 abstained. No conditions were placed by the Town Board on the permit.
4. On May 15th, 2026, the CSZD office received the completed application.
5. On June 18th, 2026 and June 25th, 2026, a public notice was published in the County's official newspaper for the CUP request.
6. On July 2nd, 2026, the CSZC reviewed the CUP request through a public hearing and determined the findings of fact to **approve** or **deny** the CUP application.

FINDINGS OF FACT AND CONCLUSION

1. The CSZC (hereinafter referred to as the agency) has the authority pursuant to the Grant County Comprehensive Zoning Ordinance Ch. 315 Subsection 3.27 (5) to issue or deny conditional use permits. Prior to granting or denying a conditional use, the agency shall make a findings of fact based on evidence presented, issue a determination whether the standards of the ordinance are met, and require additional conditions, as needed. Based upon the above findings and information provided at the public hearing, the CSZD finds that the conditional use **does or does not** meet the following criteria:

2. The agency under Ch. 315 Subsection 3.27 (5) (c) shall consider the following criteria:
 - (1) That the establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare;
 - (2) That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood;
 - (3) That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district;
 - (4) That adequate utilities, access roads, drainage and/or necessary facilities have been or are being provided;
 - (5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets;
 - (6) That adequate prevention and control of water pollution including sedimentation are being provided;
 - (7) That adequate measures will be taken to sustain existing topographic and drainage features and vegetation cover on the site;
 - (8) That adequate location of the site with respect to flood plains and floodways of bodies of water;
 - (9) That adequate consideration of erosion potential of the site based upon degree and direction of slope, soil type and vegetation cover;
 - (10) That location factors are considered which address:
 - (a) Domestic uses shall be generally preferred;
 - (b) Uses not inherently a source of pollution within an area shall be preferred over uses that are or may be a pollution source; and
 - (c) Use locations within an area tending to minimize the possibility of pollution shall be preferred over use locations tending to increase the possibility.
 - (11) That the conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified by the Conservation, Sanitation & Zoning Committee; and
 - (12) In the case of nonmetallic mining, the Conservation, Sanitation, & Zoning Committee shall also consider any reclamation plan submitted for the property and the reclamation plan's provisions for maintaining lateral support and for depth of the quarry pursuant to the standards set forth in Wisconsin Administration code Chapter NR 136.

For purposes of this section, start of construction shall be when any earth disturbing activity takes place that will lead to the installation of footings, piers, posts, pilings or foundations. Earth disturbing activity for the purpose of soil evaluation or testing shall not be considered the start of construction. This is not intended to include agricultural fence installation. If the site is within the Floodplain or Shoreland setbacks, the Floodplain and/or Shoreland permits must be obtained prior to any earth disturbing activities.

For the purposes of this section, the start of construction shall be when the construction, alteration of, or addition to, any **structure** is initiated. This includes the installation of concrete, footings, piers, posts, pilings or foundations as long as the site isn't in a floodplain or shoreland setback. If the site is within the Floodplain or Shoreland setbacks, the Floodplain and/or Shoreland permits must be obtained prior to any earth disturbing activities.

Activities That Count as Construction (Federal Defn)

The most obvious construction activities involve transforming raw land into a usable site. Clearing vegetation, grading soil, and excavating for foundations all fall squarely within the definition. These tasks require heavy equipment and set the stage for structural work like pouring concrete footings or erecting steel framing.

Grant County Sanitary Code

Section 225. Temporary RV Connections to Private Onsite Wastewater Treatment Systems (POWTS)

225.01 Purpose.

The purpose of this section is to regulate temporary recreational vehicle (RV) connections to private onsite wastewater treatment systems in order to protect public health, groundwater, surface water, and the proper function of POWTS within Grant County.

225.02 Applicability.

This section applies to any temporary connection of a recreational vehicle, camper, travel trailer, motorhome, or similar mobile unit to a POWTS located within Grant County.

225.03 Temporary RV Connections.

Temporary RV connections to a POWTS may be allowed only where all applicable county, state, sanitary, plumbing, and zoning requirements are satisfied. A temporary RV connection shall not be construed as authorization for permanent occupancy, installation of an additional dwelling unit, or use of the RV as a principal or accessory residence unless otherwise specifically permitted by applicable law.

225.04 Conditions of Approval.

A temporary RV connection to a POWTS may be approved only when the County determines that all of the following conditions are met:

1. The RV use is temporary in duration.
2. The parcel and use comply with applicable zoning requirements.
3. The POWTS has adequate design capacity for the proposed use.
4. The connection is made in a code-compliant manner approved by the County.
5. Any required permits, inspections, or authorizations have been obtained.
6. The connection will not create a public health hazard, system failure, nuisance, or unlawful discharge.

225.05 Prohibited Uses.

The following are prohibited unless otherwise expressly authorized by county and state law:

1. Permanent or indefinite RV connection to a POWTS.
2. Use of an RV as a dwelling unit or residence through a temporary RV connection.
3. Connection of an RV to a POWTS that is not designed, approved, or capable of serving the additional wastewater load.
4. Any connection that bypasses required permitting, inspection, or approval.
5. Any use that results in overloading, failure, surfacing effluent, backup, nuisance conditions, or threat to public health or the environment.

225.06 County Review Authority.

The County may require information necessary to evaluate a proposed temporary RV connection, including parcel information, site plans, POWTS design information, occupancy information, and duration of use. The County may deny, condition, limit, or revoke approval where the proposed or actual use does not comply with this Code or applicable law.

225.07 No Vested Right.

Approval of a temporary RV connection shall be limited to the specific facts and duration presented and shall not create a vested right to continued use, renewal, permanent connection, or residential occupancy.

225.08 Enforcement and Penalties.

Any temporary RV connection established, maintained, or occupied in violation of this section shall be subject to enforcement under this Code. The County may issue compliance orders, disconnect orders, citations, permit action, and pursue any other remedy authorized by law. Any person who violates this section shall be subject to a forfeiture of \$200 for each day of violation. Each day that a violation continues shall constitute a separate offense, together with applicable statutory costs, fees, and surcharges.

225.09 Other Laws.

Compliance with this section does not relieve any person from complying with all other applicable federal, state, county, town, and local laws, ordinances, permit requirements, and administrative rules.

ORDINANCE NO. _____

AN ORDINANCE ESTABLISHING INTERIM ZONING IN THE TOWN OF WINGVILLE, GRANT COUNTY, WISCONSIN

WHEREAS, the Town electors authorized the Town Board to exercise village powers pursuant to Wis. Stat. § 60.10(2)(c) at a special town meeting on April 16, 2024; and

WHEREAS, the Town electors authorized the Town Board to exercise zoning authority pursuant to Wis. Stat. § 60.10(2)(h) at a special town meeting on June 22, 2026; and

WHEREAS, Grant County zoning is in force in the Town due to the Town Board approving the June 20, 2017 comprehensive revision to the Grant County Zoning Code on _____, _____; and

WHEREAS, the Town has not adopted its own zoning ordinance; and

WHEREAS, subject to approval by the Grant County Board, the Town Board may enact an interim zoning ordinance to preserve existing uses while a comprehensive zoning ordinance is being prepared pursuant to Wis. Stats. §§ 60.10(2)(c) and (h), 60.62, 61.35, and 62.23(7)(da); and

WHEREAS, the Town Board of the Town of Wingville intends to adopt a comprehensive zoning ordinance and believes that in the interim the status quo should be maintained:

NOW, THEREFORE, Pursuant to the powers granted to the Town Board pursuant to Wis. Stats. §§ 60.10(2)(c) and (h), 60.62, 61.35, and 62.23(7)(da), the Town Board of the Town of Wingville, Grant County, Wisconsin, do ordain as follows:

- (1) The use of all real estate and appurtenant structures located thereon within the Town of Wingville shall not be changed from the use existing on the date of this ordinance, except as provided in Section (3) of this ordinance.
- (2) No buildings shall be erected within the Town of Wingville which would alter or change any existing use, except as provided in Section (3) of this ordinance.
- (3) Exceptions:
 - (a) Except as provided in Section (3)(c) of this ordinance, the use of real estate and appurtenant structures located thereon may be changed from the use existing on the date of this ordinance, if authorized by the Grant County Comprehensive Zoning Ordinance.
 - (b) Except as provided in Section (3)(c) of this ordinance, a building may be erected within the Town of Wingville which would alter or change any

July 2026 overview

Conservation:

1. Steve has completed 50 NMP site reviews to date. He is about half done
2. Brady, Steve, and I continue to work on the NPRA site reviews, deadline is July 31.
3. Steve has completed reviews of 190 NMP and is expecting an additional 140 more.
4. Brady has completed two projects this month.
5. Brady attended a field day workshop demonstrating a recent streambank and hydraulic restoration project
6. Is anyone going to the SAA Tour in Dane County?
7. Working with the Upper Sugar River group raising the purple loosestrife parasitic beetles.
8. Switched the bug survey over to include western bean cutworm

Zoning:

1. Adam has completed 13 preconstruction inspections, 1 post construction site visit.
2. Lucas and I have been out on two 2026 pre-construction inspections.
3. We have received several zoning/sanitation complaints this month. This included the Stizer School house situation and the Rockville campground.
4. A BOA meeting covering a variance for building inside a road setback was held on June 24th 2pm.
5. Developed the new standard for "definition for construction"
6. Worked with sanitation on developing a temporary housing definition ordinance.
7. Did a deep dive into the last 6 years of FP rezones.
8. Working on rearranging the permitting process to better fit the upcoming Catalis switch.

Sanitation:

1. Sanitary permits are at 60 total YTD up from 44 last month.
2. Three OFC were issued. Two for RVs being connected to a POWTS system. One for a failed system. Landowner has been working with the state due to tricky site restrictions. We are waiting for state to approve or ask for changes to the individual site plan.
3. I have been accompanying Jim as much as possible to exposure and training on installation practices.
