SWCAP Neighborhood Health Partners

# Care Coordination Network Status Report

## February 2026 activities

### SWCAP partners

Community Health Workers are consistently working with LIFT, Head Start, NHP clinic in Platteville, and Weatherization to wholistically serve all clients.

### Community agency and/or organizational partners

We have formed collaborative partnerships with each organization to refer patients to the SWCAP Care Coordination Network so that Community Health Workers can work individually with patients to address social determinant of health barriers identified by screening tools both organizations are utilizing. This is to improve health outcomes and equity.

We have Memorandum of Understandings (MOUs) with the following medical facilities

- Southwest Health,
- Grant Regional,
- Gunderson Boscobel,
- Upland Hills,
- Richland Hospital, and
- Lafayette Memorial Hospital

### Care Coordination Network News

CCN Project Manager activities for February 2026

- Training with Jen Brodie to prepare monthly and quarterly reports for all partners with MOUs and monthly SWCAP board reports
- Began working with Infant/Toddler classrooms on their classroom environments
- Planned a TECHQUITY event; home tech devices for low-income families in collaboration with United Way
- Attended Whole Family Approach core team meetings
- Planned and facilitated a regional discussion with SWCAP, ADRCs and Social Services to discuss challenges and how we can work together more effectively
- Completed Family Centered Coaching Supervisor training
- Conducted 1<sup>st</sup> interviews for Community Health Workers
- Attended Health and Wellness Department meeting
- Attended bi-monthly program managers meeting
- Facilitated 1:1 meetings with each Community Health Worker, twice a month

**Case Numbers for Previous Month –February 2026**

## Referral Sources

ADRC Grant Co. - 1

Boscobel Housing Authority – 1

Medical facilities – 21

Self/Family/Friend referral – 8

SWCAP program – NHP – 1

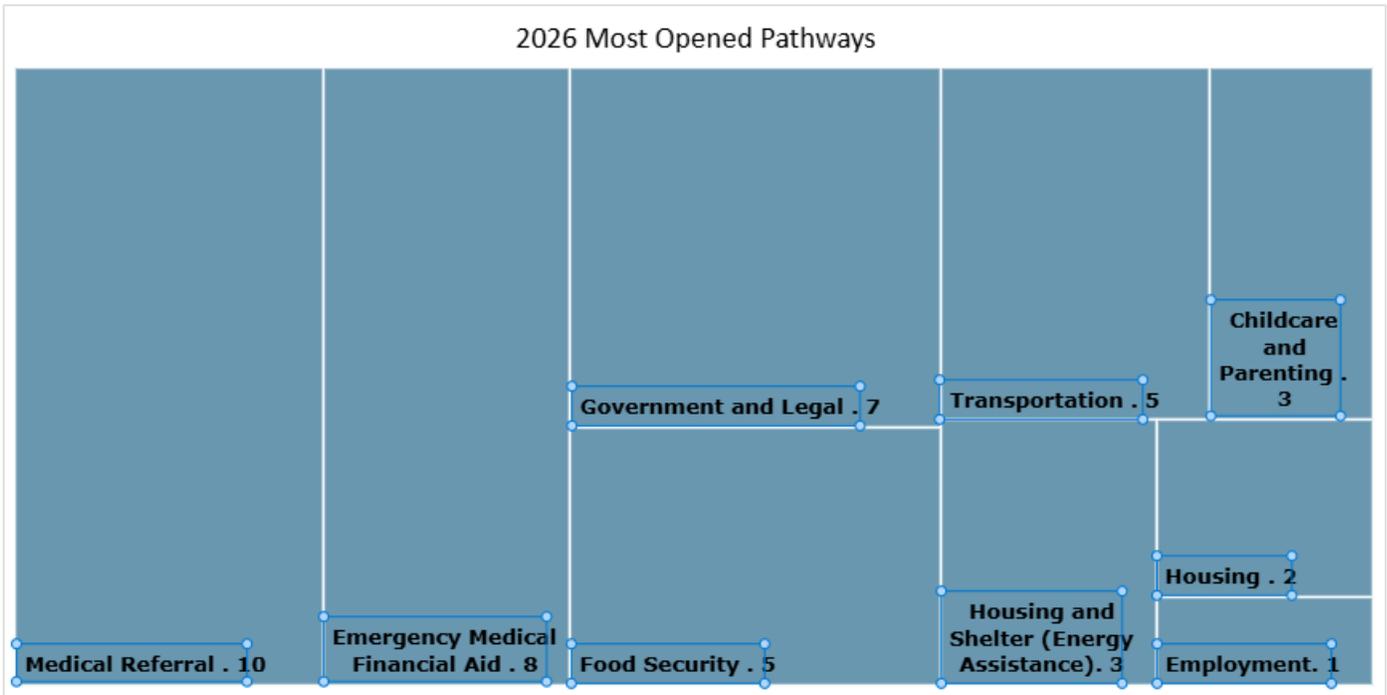

### **The number of referrals year to date is 62**

We continue to receive most of our referrals from Southwest Health, Upland Hills Health and self-referrals. Project Manager continues to work closely with the partners to ensure closed loop referrals to keep all parties engaged and informed.

In February, CCN served 147 clients – all of those clients were either transferred to a CHW or were discharged. 36 clients were discharged for the following reasons;

Declined further services	2
Deemed Inappropriate	1
Moved from area	2
Not impactable	6
Pathways completed	10
Refer to another agency or level of care	8
Unable to locate	7

**Pathways Opened in February 2026 have been added to create the chart below**

With programs losing funding and closing, there are going to continue to be fewer resources in our area. We will work to build new relationships with any new or updated resources.

**Additional information about the clients we see in the Care Coordination Network**

Federal Poverty Levels of active clients

125% and below – 95

126% and above – 27

Unknown – 24

Unknowns include people we never got in touch with; we have no way of knowing what their income or household size is.

**CHW Activity Summary – February 2026 Events**

CHWs spend time meeting with outside agencies to educate and inform on the Care Coordination Network, CHW roles and provide feedback as to what they are seeing in the field. CHWs are collaborating with others to plan and facilitate events with other agencies.

You will find information on what CHWs have been working on below. Please reach out with any questions. **If you would like to visit our Platteville office, or meet some of the Community Health Workers, call Christie at 608-553-4642.**

Impact Stories - Helped 8 individuals from the Spanish-speaking community apply for and receive laptops through United Way's Techquity Program. In addition to the laptops, these individuals will receive personalized support from the program's bilingual trained digital navigator.

Advocacy – Attended the Diabetes Deep Dive workshop put on by the Rural Wisconsin Health Cooperative. From a CHW perspective, the workshop was useful in that it highlighted how patient education varies depending on each individual case (e.g. age, type of diabetes, occupation, patient stress level, number of medications, etc.). The workshop provided strategies on how to improve patient self-care education. This will be particularly helpful with free-clinic follow-up calls to patients with diabetes.

#### Affordable and accessible

- Housing
- Transportation
- Unrestricted funding to help with utility bills/rent/car repairs
- Dental care
- Readily accessible food pantries, currently people are limited by the times and locations in rural areas (see lack of transportation)

# **Community Wellness Group Monthly Board Report**

**March 2026**

**Month: February 2026 Activities**

**Monthly Report Opportunity House – Sheryl Brokopp**

**The Opportunity House served 6 individuals.**

## **Outreach & Networking**

- 2/5, 2/19 Iowa County Treatment Court
- 2/4, 11, 18 Meetings with Unified Community Services
- 2/12 Wisconsin Sober Home Operators COP
- 2/19 Grant County Treatment Court
- 2/24 Health and Wellness Departmental Meeting
